48	32	8	8
36	22	7	7
26	14	6	6

Glass Panel Height: 48" Maximum
W (Glass Width): 26" Minimum
X= 36" Maximum
Y= 6" Minimum - 9" Maximum

Set screws for
the spigot level
adjustment

General Notes:

- The installed glass thickness must be 1/2" or 12mm and must be safety tempered.
- Recommendation is for hardware components only. Mounting the post to the base structure is a site condition and the installers must ensure that the fasteners are strong enough to resist the design weight.
- The base material to which the posts are being mounted must resist the design weight.
